MINING, BUSINESS AND STOCKS.

BEAVER CARBONATE IS SELLING BOND ISSUE

Bonds Out to Secure Funds for the Erection of a 100 Ton Mill in Beaver County.

It now looks probable that the proposed 100-ton mill for the Beaver Carbonate Mining company in Beaver county will soon be erected. After iderable detail work the bonds ar eing underwritten by Charles Stoneham & Co. The bonds are fire mortgage, 6 per cent, five year convertable gold bends of the company. They are in \$100 denominations. The Beacon Trust company of Boston, habecome the trustee for the authorized issue of \$100,000, secured by a first mortgage covering all properties, plants and equipment, and real estate now owned or hereinafter to be acquired by the company.

owned or hereinafter to be acquired by the compony.

Among the requirements is a sinking rund and the bonds can be converted into stock after Sept. 1, 1911, at the option of the holder, at the rate of 50 shares of stock for a \$100 bonds.

The mines of the company embrace an area of 180 acres of patented ground in Beaver county, one and a half miles from the town of Frisco, the nearest railroad point. A double compartment shaft has been sunk 700 feet, and drifts run both east and west from the bottom of this shaft for a distance of 1,200 feet. The aggregate amount of crosscuts and upraises amounts to 2,500 feet. This has opened up a large amount of ore. According to Maurice M. Johnson, who made an examination of the property, there is \$1,200,000 worth of ore in sight now.

With a concentrating mill of 100 tons daily capacity, the management of the company declares that it should be able to make an income of \$30,000 a month. This, it is asserted, does not include the high grade rock that could be sent out.

The old Curbonste contained a world

of good ore in the early days and it has much left, it is said.

MARKET IS LIVELY AGAIN. Volume of Business Is Higher on Local Stock Exchange.

Trading was livelier on the local stock exchange and the brokers had apparently broken through the barrier of lethargy this morning. The stiffness of trade that prevailed last week was broken and there was a freer and less constrained atmosphere. More stocks were traded in today than usual. In all 22 stocks registered sales during the morning session. The total number of stocks sold was 39,200, which brought \$14,246.50.

Carisa, Lower Mammoth and Sloux were stronger this morning. A few or-ders from the east puffed Carisa up. It gradually found favor from sales at 60, 61 and 63 cents on sellers, to 65 cents cash. It dropped down again to 64 cents on the regular board, but on the open board the shorts were pinched a little harder and the stock was sent to 88 cents.

to 88 cents.

The story that Lower Mammoth will begin shipping ore this week sent the stock up. It gradually climbed up to 54 cents. Prince Consolidated dropped down again today as bona fide orders were scarce. It reached as low as 88 cents before the close. Sloux sold at 58 1.2 and 40 cents.

cents before the close. Stoux sold at 39 1-2 and 40 cents.
On the curb market trading was slower than usual. The sales were 1,000 shares of Opex at 52 cents; 1,000 shares of Bingham Central Standard at 22½ cents and 1,000 shares at 22½, buyer 60 days.

CRITICIZE PROMOTERS.

Old Stockholders of Montana Lose Out by Sharp Methods,

Behind the filing of articles of incorration last week for the Missouri Mining company of Provo, is declared to be an interesting story in prome tion work. The new company takes over the affairs of the old Montana, which recently became defunct. Under

which recently became defunct. Under the new management the 14 claims in east Tratic taken over, will be worked. The fine machinery purchased by the Montana company has been taken over and will be used to further the work of the property.

The original owners of the property were Joë Meilich, M. W. Bird, H. J. Smith, Herbert Hopes and John Crinin. A yenor ago, they sold out to the Montana company. At that time certain terms were made and officers of the company boasted of having made their payments. The officers of the old Montana were John Roundy, president. Ernest R. Wooley, vice president, and Fred R. Woolley, secretary and treasurer. The officers with Duncan Mac-Vichie, J. C. Jensen and E. J. Raddatz formed the board of directors. Through President Roundy J. P. Creer and A. A. B. Rockhill of Spanish Fork became interested.

When the affairs of the company when the affairs of the company when the stream of the company when the affairs of the company when the stream of the company when the affairs of the company when the stream of the company when the affairs of the company when the stream of the company when the affairs of the company when the stream of the company when the stream of the company when the stream of the company when the affairs of the company when the stream of the company when the affairs of the company when the stream of the company when the stream of the company when the stream of the company when the affairs of the company when the stream of the company when the stream of the company of the c

A, B. Rockhill of Spanish Fork became interested.

When the affairs of the company reached a low elb it is declared there was a scramble for money. Roundy, Rockhill, and Creer promised to put up something like \$8,000 to keep the affairs of the company going, provided, the principal promotor of the concern would raise the same amount. It is asserted that the three men out their money in, while the promotor falled to make good. Instead of salling treasury stock, it is asserted that he sold his personal stock. Several people in Salt Lake, Provo and Spanish Pork are said to have been hit hard by this alleged promotion scheme for private gain.

John P. Creer has commenced suit against Ernest R. Weolley to collect f1,000 alleged to have been paid to the Montana Mining company by plaintiff at the request of defendant. July 1,1909, which amount defendant premised to pay to plaintiff. It is alleged that on Jan. 31, 1910, plaintiff demanded payment from defendant, but has not received it.

VALUES AT BIG NEBO.

Provo, March 21.-Manager W. D. Rawson, of the Big Nebo Mining comhas returned from the mine pany, has returned from the mines, which he reports to be in most fromising condition. The drift now is in 220 feet, and nearing the point when the ore body is expected to be opened, has carbonate ore coming in and widening with every shot, and although only two shifts have been run since the carbonate ore was opened the indications are that a large body may be encountered at any time. The assay on the ore in the breast of the drift is: Lead, 5.20 per cent; silver, five ounces: gold \$4.13. These values are expected to improve with development.

AMERICAN FORK MINES **GETTING MORE ACTIVE**

Pacific Mine Lets Contract for Drifting-Lease Given on Miller Hill Property-Dutchman Lease.

The Pacific mine will be in active peration shortly, says the American fork Citizen. The board of directors et a contract to John Sommerville and James Jones, to extend the North rift main tunnel 280 feet on the vein This will advance the work to the

This will advance the work to the Sierra fissure, and it is expected much shipping ore will be ensountered before the contract is completed. The Dutchman property is showing up the ore in great quantity and better quality than heretofore found in this mine. The ore bins are all filled and all available sacks are tilled, waiting for the roads to dry up so that the ore teams may start hauling. It is thought the road will be passable in a few drys.

Is thought the road will be passable in a few days.

Local people have at last secured a lease on the old Miller Hill property. This week J. J. Jones and John Jones of this place with Si Jones of Hingham and Ben Pierson of Pleasant Grove secured a lease on the Tonto, Shamrock and Surprise claims. A force of miners was taken to the property Friday and a vigorous campaign of development will be waged. The work will be prosecuted through the Surprise tunnel.

Roy Thompson and Wes Phillips came down from the Mary Ellen mine Thursday. The property is looking fine, is the report given out.

INCREASES ITS DIVIDENDS. Mine Makes Money After Packing Its

Materials. The directors of the Rio Plata Mining company have declared a 2 per cent quarterly dividend as against 1½ per cent on Dec. 14, 1909. It is announced that the balance of the indebtedness on the property, amounting to \$109,013.07, has been paid off out of earnings.

f earnings.
The mine is located in the southwest-The mine is located in the southwest-ern part of Chibushus, Mexico, about 20 mlies from the Sonora and Sinalou state lines. At present pack mules are the only means of transportation for 85 mlles and the owners have per-formed the feat of transporting on mule back and installing 500 tons of sectionalized machinery at a total cost of \$300.000.

of \$300,000.

The company is capitalized at \$2,000,-000, divided into 400,000 shares none of which remain for sale. There are 700 shareholders. It has never been listed on any exchange.

The company is taking out concentrates with 1,000 ounces of silver to the ton and sending them my mule to the railroad, which conveys them to the smelter. Since the present owners took charge they have shipped out about 700 tons of these concentrates. From their cyanide plant they get silver 983 fine which they ship in bars to New York for sale. The annual output at present is approximately 1,000,000 ounces.

For some time past local people have been greatly interested in the doings of Lake, North Lake and Indiania companies in Michigan.

The price of lead has been lowered considerably by the American Smelting & Refining company. This morning it was quoted at \$4.55. This is the lowest it has been for the year 1910.

Reports from the Copper Acres property at Battle Mountain, Nev., con-linue to say that the company is still working in a high grade copper ore in the winze about 100 feet below the

The following were the eastern quotations on Tintics received over Badger Bros. private wire this morning: Colorado, 75@80; Iron Blossom, 96@95; Sioux, 37@40. Ely Witch was quoted at 17@20.

According to Supt. Owens at the Eagle & Blue Bell the fine ore shoot discovered on the 1,200-foot level has been followed for 79 feet and if anything it is metting stronger. The body of ore is more than six feet across.

From Arizona comes the information that the Inspiration property is preparing to install an experimental plant to test out its ores. This will undoubtedly be followed by a larger plant. A new shift will shortly be put down about 1,600 feet from the Joe Bush

It has been proposed to change the portal of the new tunnel at the Silver Island Coalition Mines company. The tunnel will be started at a lower level so as to catch the probable junction of the Le Roy and east vein, which are about 200 feet ahead of the new tunnel and which will cut them at a depth of about 200 feet.

W. J. Wolstenholme and son have gone to Marysvale to start more active operations on the Shamrock mine. It is expected that the company will ship two or three carloads or \$150 rock, carrying gold, silver and copper each month, About 10 men will be put to work. The discovery of ore was made on March 17 a year ago, and the first car of ore was marketed March 17, this year.

BUSINESS AND REALTY

Saturday, G. R. Bothwell and R. E. McConaughy, two prominent real estate men and promoters of Salt Lake City, went east on a business trip, and expect to be absent two weeks. They will visit Chicago, Rockford, Ills., and other places before their return. Business connected with their big Idaho trigation project out from Blackfoot, where they have 125,000 acres of land either under their system of canals, or soon to be in condition for irrigation, will take up most of their attention. Over half a million dollars have been expended on this tract. Three new towns have in the past two years sprung up on the land, Aberdeen and Springfield being the principal ones, and soon the projected branch from the main line of the Short Line will be built through the property, when things will take on sort of a boom.

Badger Brothers

BROKERS 160 Main Street

roomed addition to the Longfellow school will be opened Friday noon.

Nearly 250 people took advantage of the free trip to the Park Crescent addition, Ninth South and Twenty-first East street, given Sunday afternoon by the management of the Warranty Real Estate Investment company. It was a beautiful day, and the crowd spent a most enjoyable time. Thirty lots were sold to the visitors. There are 747 lots in the addition, which is just south of Fort Douglas.

The tenants of the residence on the site of the new Baptist church edifice, corner of Fourth East and Second South streets, have been notified to yearste, as the house is to be torn town and excavation begun in 30 days. Some changes have been made in the plans, such as the raising of the ceiling six feet, and the abolition of the dome feature which it was found would considerably enhance the cost of the structure. J. A. Headlund is the architect.

It is reported that Daniels & Fishers Stores company, a large department store concern from Denver, has representatives in Salt Lake trying to secure a suitable location for the opening up of a piece of business. Failing to secure the Knutsford corner, or some other good place, the company may purchase or lease ground and erect a building of its own.

Active work on the big paving contract, covering 12 blocks on Ninth East, from South Temple to Twelfth South streets, has been started, one of the large excavating machines now digging its way slowly from South Temple southward.

David Taylor and Matt Brodle of this city, with a number of Denver capitalists are planning to organize in this city a large artificial ice and storage plant, as there seems to be a good opening for an increase of the facilities now obtaining here. Messrs Taylor and Brodle are looking about for a suitable sits on the west side.

The Millers' National Fire Insurance company of Chicago has filed application for admission to this state, with the state insurance department. It is a mutual company, with E. H. Plerce & Co., as the agents.

TONE OF MARKET DECIDEDLY HEAVY

New York, March 21.-The prevailing tone of the opening stock market today was heavy although there were gains in a few stocks. Among these Chesapeake & Ohio rose 1 and Norfolk & Western, %. Amalgamated Copper declined %. Dealings were duli.
Last week's buying of the soft coal
stocks was resumed on a large scale,
especially in Norfolk & Western which
advanced 2%. Other stocks also developed strength and the opening losses
were all made up. Union Pacific and
Reading were the strongest features of
the recognized leaders, gaining a point
each. Pittsburg, C. C. and St. Louis,
Republic Steel preferred and American
Smelting preferred also were pushed
p a point. Pressure against St. Paul
later cost it a point and caused sympathetic weakness elsewhere. Prices
recovered later.
Dealings, in stocks ran down near Copper declined %. Dealings were duli.

recovered later.

Dealings, in stocks ran down near the point of idleness as the hour approached for the assembling of the supreme court at Washington. Doubts whether the American Tobacco decision would be handed down restricted the operations. Fears were expressed that the western railroad firemen would strike. The terms of the subscriptions to New York city bonds to be opened at 2 p. m. were awaited. The special strength of the soft coal carriers seemed to be due to hopeful feeling of a bad adjustment with the coal miners. The tone was strong at noon.

noon.

Bonds were heavy. New York City bond issue sold off to low record figures, making a had impression for the success of the new issue. The new 4½ when issued, sold down to 101½ in the outside market, the lowest price yet

outside market, the lowest price yet quoted.

On the announcement that no supreme court decision would be given today in the American Tobacco case the market became more active and stronger with the metal stocks in chief demand. Subsequently the market shaded off again and became quiet. New York Central, U. S. Steel, Amalgamated Copper and American Smelting rose 1; Union Pacific 1½ and Kanashawa & Michigan certificates 1. Illinois Central and Pullman yielded 2. ed 2.

Interest in the market abated further until speculation became practically lifeless. St. Paul preferred improved 4 points without any appreciable effect on the common stock which was neglected at Saturday's closing level. American Malting pre-ferred gained 3 and American Sugar 1. ferred gained 3 and American Sugar 1. The market closed rather easy. Bids for the new city of New York bond issue were watched with keen interest in the financial district, as they were reported on the news tickers as fast as opened. The number of 429 proposals received was taken assuring over-subscriptions for the issue but the average price realized remained in doubt. A good average subscription price for these bonds was not expected to affect any other issues. Reading was run up 2 points in all Reading was run up 2 points in all and National Lead 1. Prices eased off a fraction in the late dealings but the selling pressure was light. Fed-eral Mining preferred fell 10.
